*This year's outing is dedicated in loving memory of*  
*Dr. John W. McDonald, III, MD, PhD*

We mourn the passing of Dr. John W. McDonald, III, MD, PhD, who was taken from us far too soon. Sadly, we not only lost a great man but a genius known as the pioneer of SCI research. He dedicated his life to finding a cure for paralysis. With his passing, we have lost an integral piece of the SCI puzzle. To us, he will also be remembered as a friend who believed in the work of Kali's Cure and, to this day, remains an inspiration as he reminded us that it is not *if* there will be a cure but *when!*
